

I do NOT support and reject the National Association of Broadcasters petition 04-160. I benefit from listening to XM Satellite Radio and am willing to pay for the services provided by XM Satellite. This satellite radio service provides variety and quality that are not available elsewhere, including local radio stations. It should not be up to the NAB to dictate what I am permitted to hear, including local traffic and weather. XM is fair competition that the NAB appears to be limiting. I do not support NABs attempt at controlling or restricting its competition.
